Notice No.

2009-04

MEMORANDUM FOR: **NAVIGATION INTERESTS**
 GIWW – ROLLOVER PASS TO GALVESTON
 CAUSEWAY, IN GALVESTON COUNTY, TEXAS

SITUATION: NAVIGATION RESTRICTIONS

The Dredge "Venture" should be ready in approximately 96 hrs to start dredging operations on Rollover Pass. The Dredge Captain has requested that traffic be restricted to single wide tows. The reason is because the Dredge is 45 ft wide and draws 8 ft of water. There will be a few places along the GIWW where the dredge will not be able get out of the way for traffic and possibly making the only means of passing by single wide tows. Tows preferred passage is on the north side of channel where deeper water exist. However tows Captains are requested to contact dredge Captain via marine radio to determine the best side for safe vessel passage.

TIME: 10 March 2009 thru 30 March 2008

COOPERATION

SOLICITED: **Mariners are urged to exercise caution when navigating near this location.**
